

MONTE CECILIA

Housing Homeless Families

Housing Specialist

Monte Cecilia Housing Trust has been advocating for and working with homeless families for over 34 years. We are a team, dedicated to supporting families to achieve sustainable housing through our emergency, transitional & longer term housing with wrap around social services.

This is an amazing opportunity for someone who is passionate about family/whanau and community wellbeing and wants to be part of creating better long term sustainable housing options for those families who are marginalized and homeless.

Position Description

Monte Cecilia Housing Trust recognise that homelessness is a complex issue that requires a community wide approach, where key organisations come together to work collaboratively to end homelessness, not just manage it. Having a home and successfully navigating social services are both critical success factors in delivering positive family outcomes. Monte Cecilia is about ensuring families not only has housing but support that enables sustainability. Based on proven housing models and Monte Cecilia's successful history of housing over 1000 families we provide access to safe, affordable accommodation options and then link people with the social services they require for complete wraparound support. Services are coordinated where different agencies come together to work directly with people to connect them with appropriate accommodation, income, employment and other community support services needed to help restore them to independent living.

Purpose

The purpose of this role is to source affordable and suitable housing options for families based on their needs. You will be responsible for building an ongoing portfolio of potential housing options by developing and sustaining strong relationships with both real estate agents and private landlords to find a long term sustainable housing solution.
